Standards

## Chemical Facility Anti-Terrorism Standards

Since 1946, GSSC has provided specialized Security Services for a variety of industries that require accredited, precise and professional security services. With new Government regulations (CFATS) being required for Tier 1 – 4 facilities, GSSC offers a CFATS Security Service that does more than just meet these requirements. We offer a fully integrated Security Program of professional Security Personnel, equipment, FSO Assistance and record keeping. All services are implemented in compliance with CFATS regulations and the Facility Security Plans.

## CFATS Risk-Based Performance Standards

GSSC services focus efforts and resources on maintaining these Performance Standards for our Clients

- Officer Training Program
- Services Procedure design and purpose
- Quality Control Program
- Security Drill & Exercises
- Service Audit and inspections

## CFATS Security Services

GSSC services provide a wide array of qualified service options to ensure our customers remain in full compliance with the CFATS Risk-Based Performance Standards.

- CFATS Security Officers
- Access Control Officers
- Electronic Monitoring Systems-Remote Monitoring
- CCTV Security
- Security Procedures
- Facility Security Plans

GSSC looks forward to evaluating your CFATS Program and presenting your organization with a customized Site Security Plan that will meet and exceed your expectations.
